Frontend Simplified

**Cambridge IGCSE Computer Science** Oct 2020 – June 2021  
Maadi Narmer School

### Experience

---

**Private** Feb 2022 - Current  
Frontend Coding Tutor

- Tutoring colleagues that are passionate about software the fundamentals of front-end web development using HTML5, CSS3 & Flexbox best practices that I've learnt.
- Simplified difficult concepts including responsive website dev and CSS layout.
- Provided website UI designs to 1:1 and reviewed code through weekly code reviews.

**Ebis-Narmer Model United Nations** Oct 2020 – March 2021  
Graphics Designer & Jan 2022

- Collaborated with my graphics design colleagues on social media postings and materials for the annual ENMUN in 2021.
- Appointed to lead the Multimedia & Graphics Design team in 2022.
- Came up with creative design ways for the flyers that helped improve the number of individuals that attended these events.

- Worked as a math assistant for ninth graders, grading assignments and tests and assisting pupils in grasping mathematical topics.

## **Projects**

---

### **Tour & Travel Agency**

- Created a travel and tourism website that aimed at showcasing Egypt's beauty using Figma, HTML, CSS & JavaScript.
- Iterated the core sections that are going to be used 80% of the time.
- Refrained from using Dummy Text during wire-framing since it does not represent an accurate model and will have an impact on the development process.
- Used HTML, CSS & Flexbox best practices to implement and responsive layout.

### **Personal Portfolio**

- Developed my personal portfolio using Figma, HTML, CSS & JavaScript.
- To boost the likelihood of ranking, I used HTML and SEO best practices from writing compelling head and body tags to optimizing images and improving overall user experience.

### **Uber Cuisine**

- Developed an Uber Eats clone in which Uber has its own menu.
- Used a food API to retrieve meals containing the ingredient the user is looking for.

### **Community Contribution**

- Developed a website focused at enhancing strengths, improving mental health, and even healing relationships using Figma, HTML, CSS, and JavaScript.
- Refrained from using Dummy Text & Dummy images during wire-framing in order to generate an extremely consistent mockup with a technique that is as efficient and effective as possible.

## **Technical Skills**

---

**Proficient:** [HTML, CSS, Flexbox, JavaScript, Git, Figma, Photoshop, Lightroom Classic]

**Familiar:** [C, Markdown, Sass]
