Profile

As a driven and passionate front-end web developer, I have a natural ability to learn and adapt to new technologies quickly. With expertise in HTML, CSS, JavaScript, and React, I am dedicated to delivering high-quality web applications that provide a great user experience.

Experience

Software Engineer (Instructor) - Hybrid

Timedoor Academy, Cairo, Egypt

June 2022 - Current

- Deliver concepts of coding such as algorithms, loops, variables, functions etc. in JavaScript syntax implemented in simple projects, robots and IoT.

Train students on how to:

- Develop their own website using HTML, CSS & JavaScript for dynamic web applications.
- Design & develop their own mobile applications using React Native.

Frontend Support Engineer - Remote

Frontend Simplified, Sydney, New South Wales, Australia

May 2022 - Current

- Helped more than 80,000 students overcome obstacles and cultivate innovative ideas.
- Simplified difficult concepts including responsive website dev & CSS layout, & SEO optimization.
- Taught debugging best practices for Design Time and Run Time using Google Chrome inspect element tooling.
- Utilized advanced languages and best practices to build scalable landing pages and websites, resulting in high-performing and adaptable products.

Graphic Designer - Remote

Freelance, Cairo, Egypt

June 2021 - Oct 2021

Mathematics Teaching Assistant - Hybrid

Maadi Narmer School, Cairo, Egypt

Nov 2020 - Apr 2021

- Worked as a Mathematics Teaching Assistant for ninth-grade students.
- Assisted pupils in grasping mathematical topics through personalized teaching and guidance.
- Graded assignments and tests to provide feedback to students on their progress.
- Monitored student performance and provided one-on-one assistance to struggling students.
- Fostered a positive and supportive learning environment to encourage student engagement and participation.
